## EDUCATION

University of Kerala

2022-24

M.Sc. Computer Science

University of Calicut

2019-22

B.Sc. Computer Science

## CERTIFICATIONS

- Junior programmer in C
- B2 level certificate from British council
- Machine Learning using Python
- IoT Communication Technologies
- Introduction to Data Science

## SKILLS

- Communication
- Leadership Skills
- Efficiency
- Team Player
- Problem Solving

## ADDITIONAL SKILLS

- Programming Languages: JavaScript, HTML, CSS, Java, Python, C
- Web Development: React.js, Node.js, Express.js, RESTful APIs
- Databases: MongoDB, MySQL, PostgreSQL

## PROFILE

Highly organized and detail-oriented professional with a strong drive to exceed expectations. Skilled in data analysis, strategy development, and problem-solving. Currently interning at CDAC Trivandrum, specializing in web application development within the health technology sector. Seeking to leverage expertise and internship experience to contribute to team success and drive impactful results.

## WORK EXPERIENCE

PROJECT INTERN

**CDAC Trivandrum**

*March 2024 - Present*

- Develop and maintain web applications aimed at improving health technology solutions, utilizing HTML, CSS, JavaScript, and React.js for the front-end.
- Implement back-end services using Node.js and Express.js to ensure seamless data integration and API functionality.
- Collaborate with healthcare professionals to gather requirements and ensure the software meets user needs and regulatory standards.
- Document technical specifications and provide training materials for end-users and stakeholders.

## PROJECTS

- **Detector:** Developed a system designed to detect individuals not wearing masks and ensure adherence to social distancing protocols.
- **YGuard:** Created an advanced DeepFake detection tool aimed at identifying and mitigating the impact of manipulated media.
- **NirnAi:** Contributed to the development of a React-based medical image viewer, a web application designed for viewing and performing segmentation functions using AI.
- **Subscription based Billing Platform:** Developed custom billing solutions leveraging KillBill, an open-source platform, to facilitate streamlined revenue management and subscription services for businesses.
- **Dynamic Form Builder:** Designed and implemented a web-based tool for creating and managing dynamic forms for patient intake and surveys.
